

We believe
in you.

ARFFMAN

Career Path

Duration
15 d +
c. 3 mos.

Join our Career Path training!

Career Path starts with a **15 day** long group training that supports your personal career planning. During the training, we offer diverse, up-to-date information about subjects concerning career planning, education and employment. The training will be held as classroom instruction, including group work and individual exercises that aim to clarify career opportunities.

During Career Path you will draw up a feasible personal career plan concerning your own employment and education path. After taking part in the training, we will help you carry out your plan. Depending on your personal situation, you will meet our career and employment experts one-to-one, participate in other group events or online webinars, for instance. We will support you in realising your plan until your goals are met, or for three months at most.

Together, we will succeed. Welcome!

Our experts have skills, experience and knowledge regarding employment and education opportunities

We are recruitment experts and specialists in effective job search

We offer genuine support that takes into account your goals and wishes regarding a new job

Jobs
Education
Entrepreneurship
