Expert assessment and service guidance

Are you a foreign language te-office customer who has moved to Finland?
Do you live in Riihimäki, Forssa or Heinola?
Are you in need of more time and personal guidance concerning job searching, or services that will support your life situation?
Would you like to improve your Finnish language skills?

Together, we can discover the best way for you to move forward! You will be assisted by an experienced integration, language skill assessor, working life coach, employment and education specialist. We use plain language, if necessary, an interpreter or a native-speaking coach will be available for you. If you want, you can improve your Finnish language skills in Suomi-hubi, by participating in online lessons for 1 - 2 hours a day for 1 - 3 months.

We will contact you within two weeks after the te-officer signed you up for our service. We will be regularly in contact with you during the implantation of the service, both face to face and online (e.g. using WhatsApp, Zoom, Google Meet).
