

JOB SEARCHING SERVICE 2

Tampere employment area

Our service aims to help you find employment in the open job market and provide support in maintaining your job if needed. During the coaching, we focus on job searching, exploring different job search channels, and going through various job search themes. Throughout the service, we will contact employers together and practice job interviews. This is an intensive coaching program where you will regularly meet with your personal coach.

TRAINING MAY INCLUDE

- Updating resumes and job applications
- Planning the service path and setting job search goals
- Identifying competence and marketing to employers
- Developing your own skills
- Job search: identifying and contacting potential employers
- Preparing a job search implementation plan
- Language training for immigrants
- Coach support in the workplace

The service is implemented as face-to-face coaching within the Tampere region employment area, following a structured process that requires client commitment. To participate, please contact your employment specialist.

SERVICE PROGRESS

Step 1: Initial Assessment

The job search service begins intensively with an initial assessment and a face-to-face meeting with your coach. At the start of the service, you will set suitable goals together. Duration: Up to 1 month.

Step 2: Job Search

Once your job search goals have been set, you move on to job searching. Together with your coach, you identify hidden job opportunities and contact potential employers. The goal of this step is to get you employed! Duration up to 2 months.

Step 3: Workplace Support

The last step of the service is implemented after possible employment. You will also receive support from your coach at the workplace: we support staying at work, orientation and the development of work community skills in the early stages of the employment relationship. Duration maximum 2 months.
